

MUSHAHID HUSSAIN

Software Quality Assurance Engineer | QA Automation & AI Testing

📍 Islamabad, Pakistan ✉️ mushahid.hussain.work@gmail.com 📞 +92 335 3903115

🌐 linkedin.com/in/mushahyd 🐙 github.com/Mushahid-H

PROFESSIONAL SUMMARY

QA Engineer with 2 years of experience across automation, manual, API, performance, and AI-driven testing. Skilled in **Playwright, Selenium, Cypress, Postman, and JMeter**, with database expertise (MySQL, PostgreSQL, MongoDB) and hands-on use of AI tools (ChatGPT, Claude, Glean, AI Agents) for test generation and validation. Builds scalable automation frameworks and improves QA efficiency in Agile teams, with a track record of increasing test coverage by **40%**, reducing regression time by **35%**, and cutting defect leakage by **50%**. Strong analytical thinker with solid problem-solving, debugging, and collaboration skills.

PROFESSIONAL EXPERIENCE

SQA Engineer

Jan 2026 – Present

Technogenics.io, Lahore

- Executed functional, regression, sanity, integration, design, web, and backend testing, increasing test coverage by **45%**.
- Maintained automated test scripts with CI/CD pipeline integration via GitHub Actions, reducing regression execution time by **30%**.
- Designed and executed test cases, monitored execution metrics, and tracked defects in Jira and Linear, achieving a **99% defect detection rate**.
- Performed API testing, white-box and black-box testing, database validation, and verified data flows across web and backend applications.
- Leveraged AI tools (ChatGPT, Claude) for automated test data generation and exploratory testing, improving defect detection efficiency by **35%**.
- Collaborated with Agile teams on debugging and release validation workflows, reducing post-release defects by **50%**.

Software QA Engineer

Apr 2025 – Dec 2025

QLU.ai, Islamabad

- Built and maintained a Playwright automation framework, cutting manual testing effort by **40%**.
- Designed and executed **1,000+ test cases**, tracked execution metrics, and logged **600+ defects**, improving release stability by **30%**.
- Conducted performance testing with JMeter, simulating **50+ concurrent users**.
- Performed API automation, white-box and black-box testing, database validation, and data flow testing with a **99% defect detection rate**.
- Integrated AI-assisted validation with Notion and Glean, improving regression coverage by **25%**.
- Debugged complex workflows across web and backend applications, strengthening analytical and problem-solving depth.

QA Analyst (Contract)

EGeeks Global, Rawalpindi

Dec 2024 – Apr 2025

- Executed manual testing cycles and full STLC processes, maintaining **100% project compliance** and reducing post-delivery defects by **20%**.
- Designed and executed test cases, tracked metrics, and validated data flows in web and backend applications.
- Performed white-box, black-box, and design testing; collaborated cross-functionally to resolve defects efficiently.

PROJECTS

Playwright Automation Framework

Mar 2026

Personal Project, TypeScript

- Developed a scalable automation framework in TypeScript using the Page Object Model (POM).
- Integrated AI-driven test validation (ChatGPT, AI Agents), SQLite-based logging, screenshot capture, retry mechanisms, and modular reporting.
- Covered web and backend applications, database validation, white-box and black-box testing, and data flow verification.
- Tracked test cases, execution, and metrics; framework ready for CI/CD integration with GitHub Actions.

TECHNICAL SKILLS

Testing & QA	Manual, Automation, Functional, Regression, Integration, End-to-End (E2E), Smoke, Sanity, API, Performance, Cross-Browser, White-Box, Black-Box, Design Testing, Test Case Design, Test Execution, Test Metrics, Data Flows, Web & Backend Application Testing
Automation & Frameworks	Playwright, Selenium, Cypress, Page Object Model (POM), Data-Driven Testing, Test Framework Design, UI & API Automation
AI & Agent Tools	ChatGPT, Claude, Notion AI, AI Agents, Glean, Prompt Validation, Response Accuracy Testing
API Testing	Postman, REST APIs, Request Chaining, Authentication Testing, JSON Validation
Performance Testing	JMeter, Load & Stress Testing, Concurrent User Simulation
Databases	MySQL, PostgreSQL, MongoDB, SQL Query Validation, Data Consistency Checks
Programming & Scripting	JavaScript, TypeScript, Python, SQL, Pytest
CI/CD & DevOps	GitHub Actions, Jenkins, Docker (Basics), CI/CD Pipeline Integration
Project & Test Management	Jira, Linear, Confluence, Test Planning, Defect Tracking, Test Case Execution, Test Metrics
Soft Skills	Problem Solving, Logical Thinking, Analytical Skills, Debugging, Cross-Functional Collaboration

EDUCATION

B.Sc. in Software Engineering

Sukkur IBA University
Sep 2020 – Sep 2024

CERTIFICATIONS

- JMeter Performance Testing — 2025
- API Testing with Postman — 2025
- Agile Testing Fundamentals — 2025
