

Mushahid Hussain

Software Quality Assurance (SQA) Engineer

mushahidhussain882@gmail.com | +92 306 9008545 | linkedin.com/in/mushahyd | github.com/Mushahid-H

PROFILE SUMMARY

Detail-oriented Software Quality Assurance (SQA) Engineer with hands-on experience in manual testing, test automation, API testing, and performance testing. Proven ability to design and execute large-scale test suites and drive significant defect detection improvements across enterprise-level applications, contributing to stable and high-quality product releases. Proficient in Playwright, Postman, JMeter, Jira, and Linear, with a strong foundation in STLC, SDLC, and Agile methodologies.

WORK EXPERIENCE

Software Quality Assurance Engineer <i>Technogenics.io</i>	Jan 2026 – Present <i>Lahore (On-site)</i>
- Performed functional and regression testing for StrikeReady, an AI-powered cybersecurity operations platform, validating threat intelligence ingestion, case management, and SOC analyst automation workflows. - Collaborated with developers in an Agile environment, tracking issues and test progress using Jira to maintain sprint-level QA visibility.	
Software Quality Assurance Engineer <i>QLU.ai</i>	Apr 2025 – Dec 2025 <i>Islamabad (On-site)</i>
- Designed and executed 1000+ test cases and logged 600+ defects, significantly improving product quality and defect detection efficiency. - Performed functional, regression, and integration testing across enterprise-level applications, ensuring stable and high-quality releases. - Automated all major UI workflows using Playwright, reducing repetitive manual testing effort by 40%. - Developed JMeter-based performance and load test suites, simulating 50+ concurrent users to identify early scalability bottlenecks in a Dialer Application.	
QA & Cybersecurity Analyst <i>EGeeks Global</i>	Dec 2024 – Apr 2025 <i>Rawalpindi (On-site)</i>
Reviewed and validated technical deliverables for accuracy, completeness, and compliance with project requirements, applying QA principles to ensure error-free documentation.	

SKILLS

Testing Types: Manual, Automated, Functional, Regression, Integration, System, End-to-End, Black-box, White-box
Test Design & Management: Test Case Design, Test Strategy, Test Planning, Bug Reporting
Automation Tools: Playwright, Cypress, Postman
Performance Testing: Apache JMeter, Playwright Load Testing
Project & Bug Tracking: Jira, Linear
Programming: JavaScript, Python
Methodologies: Agile, Scrum, STLC, SDLC, Verification & Validation

EDUCATION

Bachelor of Science in Software Engineering <i>Sukkur IBA University</i>	Sep 2020 – Sep 2024 <i>Sukkur, Sindh</i>
